

Technical Report UL-CSIS-94-13
Department of Computer Science and Information Systems
1st Annual Research Conference
12th September, 1994

Strategic Software Reengineering	Tony Cahill
CALL Tools for Irish Grammar	Annette McElligott
Practical Issues in Diagramming Software	Michael Doorley
Object-Oriented Lexicography	Gearoid O'Neill
Applications of Dataflow Analysis	Liam O'Brien
Representing Music Scores	Donncha O'Maidin
Francophone Stylistic Grammar Checking using Link Grammars	Tom Brehony
Telecom Trends	Seamus O'Shea
Systems Documentation	Charles Stanley-Smith
Linking CAD to CAPP	Ita Richardson
Telecommunications Management Network - An Event forwarding Discriminator	Brian Coll
A Strategy for Linguistic Engineering via Re-Usable Tools and Resources	Richard Sutcliffe
Empirical Research in Software Engineering	Norah Power
Low-Level Maintenance	John O'Gorman
