

Before we start the interview, we need to record you agreeing to take part.

We will read the following list. It checks that you understand what taking part in the interview will mean for you.

This is the list:

- ✓ I have been told what this study is about.
- ✓ I had a chance to ask questions.
- ✓ I know that I don't have to do this interview if I don't want to.
- ✓ I know that the researcher will record the interview.
- ✓ I know that nobody who reads about this research will know who I am.
- ✓ I know that I can take a break at any point.
- ✓ I know that I can pull out of this research at any time up to two weeks after this interview.
- ✓ I have watched the video of the Research Privacy notice or read it, and I understand it.
- ✓ I understand that I can ask for and receive a copy of what I say, and the final report of the research.

If you agree with everything on this list, we will ask you to say your name and that you agree to be part of the research.

The recording with your name in it will be stored completely separately to the interview. No one who reads about the research will know that you took part.
