# University of Limerick Faculties

## Arts,

The Faculty of Arts, Social Sciences and Humanities is a centre of critical thought and research of national and international esteem. It is proud of itself on the global stage and its commitment to a discipline that is relevant in its context. Our research areas are interdisciplinary and focus on the development of innovative and analytical approaches to the study of the human condition.

## Educational Studies

Educational Studies is a rapidly growing discipline that consists of the Graduate Certificate in Education (the Graduate Certificate in Education) and the School of Education. The School of Education is a department that includes Physical Education and Psychology.

## Humanities and Social Sciences

The Faculty of Arts, Humanities and Social Sciences is a stimulating centre for critical thinking and a generator of nationally and internationally recognised scholarship. It prides itself on the quality of its teaching and its commitment to research in primary and interdisciplinary areas where debate and discussion are integral features in the advancement of knowledge and of practical skills.

## Education and Health Sciences

The Faculty of Education and Health Sciences (EHS) is a rapidly growing faculty that comprises three Schools: the Graduate Entry Medical School, the School of Education and the School of Allied Health and three departments (Nursing and Midwifery, Health Education and Sport Sciences and Psychology).

**QS** **STARS**<sup>™</sup>  
RATING SYSTEM

## Science and Engineering

The Faculty of Science and Engineering is well recognised for the quality of its teaching and learning, academic programmes and research expertise, having three world-class research institutes in the areas of Materials and Surface Sciences, Software Engineering, and Mathematics, which are underpinned by well-established links with industry.

## Kemmy Business School

The Kemmy Business School is a dynamic and innovative business school with a reputation established over 30 years for providing a first-class business education that prepares graduates for successful and rewarding careers in a variety of business disciplines and professions. The commitment to designing study programmes for key sectors of the economy (health services, financial services, tourism) and for key sub-groups of the population (mature students, employed professionals) and in delivering these in innovative and flexible ways (at outreach centres, in-company, distance/ flexible learning) are key characteristics of the school.

# Spoken English for International Academics

## Achieving your potential

The Summer Institute offers international academics the opportunity to develop their language skills along with methods and strategies to teach effectively through the medium of English in an attractive and flexible online programme. This will be accompanied by a focus on contemporary issues in international Higher Education today. The course will run in a two-week or four week block. This programme is delivered in summer school format with morning and afternoon workshops with indicative content outlined below

### By the end of this unit, participants from university educational sector will have:

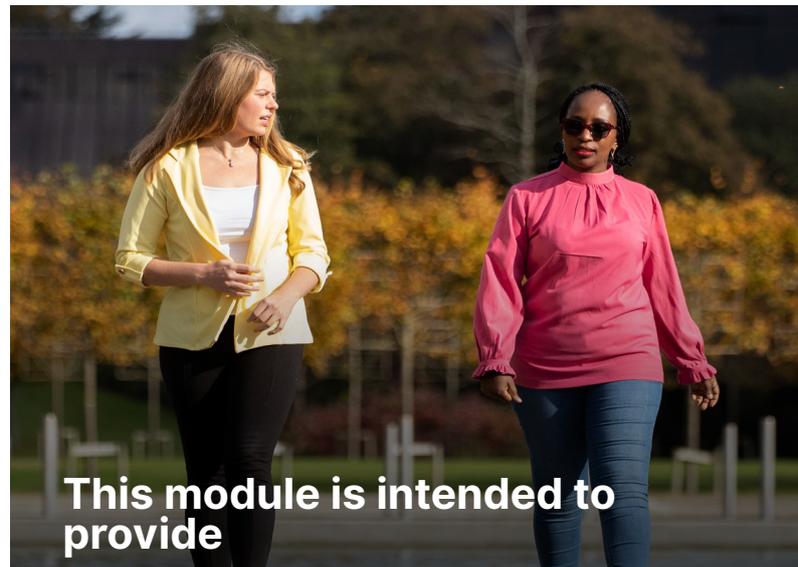

- Developed an understanding of EMI as an approach and its practical application in Higher Education
- Acquired a critical understanding of what constitutes effective and suitable spoken and written professional language use by lecturers, presenters and researchers working in EMI Higher Education contexts
- Developed proficiency in EMI in a

range of spoken and written modes of communication

- Gained knowledge and skills in the design and delivery of lectures in the EMI Higher Education context
- Become more confident and expert in writing research papers in the EMI Higher Education context.

### By the end of this unit, participants from secondary educational sector will have:

- Developed an understanding of EMI as an approach and its practical application in the school environment
- Acquired a critical understanding of what constitutes effective and suitable spoken and written professional language use by teachers working in EMI contexts
- Developed proficiency in EMI in a range of spoken and written modes of communication
- Gained knowledge and skills in the design and delivery of lessons in the EMI context

**This module is intended to provide**

Raise awareness of cultural diversity and facilitate the development of intercultural knowledge and communication skills as well as fostering an understanding of inclusion diversity and equality in education

# Professional Writer Discourses for Acad working in EMI Contexts

# n demics

## This module is intended to provide

Professional language development in written academic English for academics and teachers . For lectures and researchers from a non-native English backgrounds to be able to work effectively in EMI contexts, they must acquire a high level of accuracy and fluency in their written academic English language use together with discipline specific literacies. This module will also raise awareness of the academic culture and protocols in third level education in English speaking countries, EMI as an approach, and the features of written academic English at the levels of grammar, lexis, and discourse features. It also provides opportunities for visiting academics to improve the accuracy and fluency of their written academic English to be better able to teach and research in third level EMI contexts. Throughout the module new technologies and corpus linguistic approaches will be drawn on. The design of the module is informed by empirical research in the area of written institutional discourse (Biber et al 2002).

## On successful completion of this module, participants should be able to:

- Identify and demonstrate effective information management skills and critically evaluate research that is relevant to their academic discipline
- Gain an understanding of the features of written academic discourse
- Develop enhanced writing skills, and interpret and analyse texts
- Demonstrate and practice the skills of academic writing
- Participate in project and group work within the classroom
- Integrate into the professional academic community
- Illustrate cross cultural awareness within and outside the classroom

## Overall cost for two week online programme

Spoken English for International Academics	€900
- Online Week 1	
Professional Written Discourses for Ademics working in EMI Contexts	€900
- Online Week 2	
Total	€1800

## **Leonardo Antonio Silva Teixeira Brazil**

Being a teacher and partner of EFIGIE and the Franklin High School has given me excellent opportunities to grow professionally.

I took part in the Summer Institute at the University of Limerick which was very unique, inspiring and fruitful experience for my pedagogical development. Thank you to all the lecturers at the University of Limerick.

## **MARCOS AURELIO RIBEIRO DE SOUSA, Colégio Paraíso Brazil**

Recently I had the honour to participate in a two week course offered by Efigie in partnership with the University of Limerick in Ireland. Two weeks full of learning and exchanging teaching experiences. Besides the very rich classes with excellent teachers who have teaching experience in several countries, we participated in workshops, had training on various new technological tools and had individual assistance with the teachers, who guided us and provided materials/tips of sites, platforms, etc.. It was a wonderful experience!

**Natalia Gomes**  
**Colégio Next Itatiba**

**Brazil**

The Summer Institute of the University of Limerick was an amazing experience; a fantastic opportunity of sharing experiences with other teachers and an incredibly rewarding experience altogether.

**CARLA NEVES PINTO, Organização Educacional Farias Brito**

**Brazil**

I was worried not to understand the Irish accent, but now I love it! I'm falling in love with Ireland! Even more so than I already was!
